

SERVICE STREAM LIMITED

Managing Director's AGM Presentation

Leigh Mackender

23 October 2019

Company Profile

Service Stream Limited (ASX:SSM) is a S&P/ASX200 company providing integrated end-to-end asset life-cycle services across essential infrastructure networks within the Telecommunications and Utilities sectors

People	FY19 Revenue	FY19 EBITDA ¹	FY19 Adjusted EPS	FY19 Dividends / share	Market capitalisation ²
2,200 Staff 3,500+ Contractors	\$852.2m	\$93.3m	15.14c	9.0c	\$1.1b

¹ EBITDA from Operations

² based on share price of \$2.70 as at 18-Oct-19

TELECOMMUNICATIONS

Telecommunication network engineering, design & construction, maintenance and operations

UTILITIES

Utility network engineering, design & construction, maintenance and operations

**FY19
GROUP
PERFORMANCE**

Group Performance Highlights

Financial

- 2H19 is the 12th consecutive half-year of growth across key profitability measures
- Better-than-expected EBITDA to OCFBIT conversion % delivered in 2H19
- Net Cash position retained despite outlay to acquire Comdain Infrastructure
- Increased final dividend to 5.5 cps (fully franked) taking full-year dividends to 9.0 cps
- Group's reportable segments now reflect Telecommunications & Utilities

Operational

- Continued delivery of industry leading HSE performance
- Renewed all 13 x metering services agreements which reached the end of their contract term during FY19, supporting ~\$250m of works over future years
- Secured extensions of both OMMA & NMRA nbn agreements, taking effect from January 2020
- Comdain Infrastructure secured new asset renewal agreement with South East Water

Strategic

- Strong demand for maintenance services across both telecommunications and utilities markets
- Group revenues expected to reflect ~ 55:45 split between telecommunications and utility operations going forward
- Comdain Infrastructure integration ahead of schedule
- Business is well placed to secure additional organic growth opportunities across core markets
- Further external growth and diversification opportunities being assessed in FY20 with continued focus across core markets

**FY19
OPERATIONAL
PERFORMANCE**

Safety Performance

Maintaining our focus on the safety of our people, our customers and the community

- Business continues to deliver industry leading HSE performance as operations grow and expand
- Improvements delivered during FY19 across both TRIFR and MTIFR
- Targeted campaigns continue to be an ongoing focus for Management in FY20:
 - Regular reviews and enhancement of critical controls across higher-risk field operations
 - Continued analysis of lead-indicators to drive increased awareness and proactive improvements
 - Increased focus on preventative and corrective actions across high-potential incidents

TELECOMMUNICATIONS

Telecommunications

Telecommunication network engineering, design & construction, maintenance and operations

- Revenue up \$52.6m or 10% on prior year, in line with expectation
- Improvement in EBITDA margin to 12.9% due to a higher proportion of revenue under a free-issue-materials commercial framework and further operational efficiencies
- Continued demand for nbn customer activations, with strong bias to 2H19, representing a 27% increase on 1H19 volumes
- Maintenance work continues to increase as nbn network footprint expands and activations add more connections requiring support
- Since secured extension of key nbn OMMA & NMRA contracts, commencing January 2020

UTILITIES

Utilities

Utility network engineering, design & construction, maintenance and operations

- Revenue up \$166.7m or 156% on prior year primarily due to inclusion of Comdain Infrastructure in 2H19.
- Margin reduction from 9.8% to 8.7% due to the impact of a lower-margin contribution from Comdain Infrastructure
- Integration of Comdain Infrastructure integration is going well and ahead of schedule.
- Strong demand observed for both D&C and O&M services, with Comdain Infrastructure secured new 3+2 year agreement with South East Water in Victoria for the renewal of water and wastewater infrastructure
- Metering Services renewed all 13 x field service agreements that either came to market or reached the end of their initial contract term in FY19, supporting ~\$250m of works over future contract terms
- TechSafe and Radhaz have been combined to form a broader Inspection Services business providing both electrical inspection and electromagnetic emissions services

GROUP STRATEGY & OUTLOOK

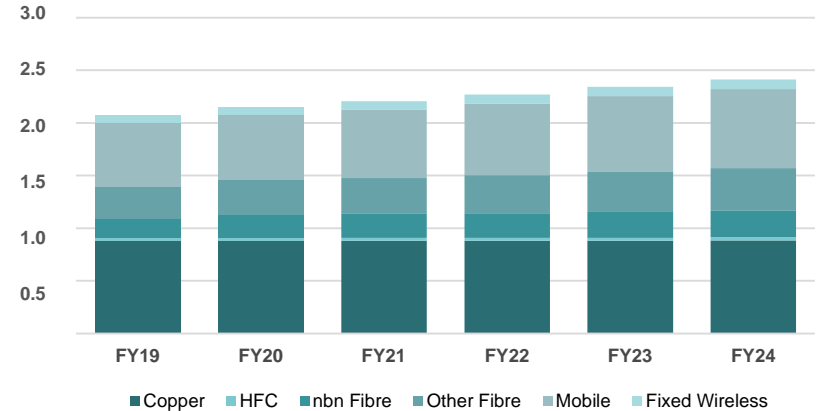

Maintenance Market Outlook

Continued growth in maintenance expenditure expected across telecommunication and utility infrastructure networks

- Fixed-line maintenance increasing as nbn network deployment expands
- Increasing dependency on telecommunications networks supporting a technology-driven investment in new fixed-line and wireless network infrastructure
- Service Stream remains technology-agnostic, providing a range of maintenance services across both fixed-line and wireless technologies

Telecommunication Maintenance by Asset Type (\$B)

- Ageing utility asset base supporting growth across network maintenance
- Increased investment in renewal and upgrade of water and wastewater infrastructure to support population growth
- Service Stream provides services associated with the design, construction, installation and maintenance of gas, water and electricity assets

Utility Maintenance by Asset Type (\$B)

Group Strategic Pillars

We continue to focus on five fundamentals which drive operational effectiveness, continual improvement and support future growth

SERVICE DELIVERY

- ▶ Continued focus on superior **service delivery** and **execution** for our valued clients
- ▶ Drive ongoing improvements across our **Safety performance**
- ▶ Maintain a **strong balance sheet** and continue to minimise working capital requirements
- ▶ Maintain or improve **Group EBITDA margins** through scale and operational efficiencies

CLIENT RELATIONSHIPS

- ▶ Continue to **develop and enhance** our existing client relationships
- ▶ Expand and secure **new relationships** to support ongoing business growth

OPTIMISE OUR DELIVERY MODEL

- ▶ Ongoing **investments in technology** to support growth and increase efficiency
- ▶ Implement **mature and scalable** business frameworks and processes
- ▶ Increase use of **data analytics** and **Business intelligence** tools to drive improved business outcomes

OUR PEOPLE

- ▶ Continual investment in **talent development** and **succession programs** to support our valued people
- ▶ Ongoing investment in programs to **attract and retain new talent**
- ▶ Continue to drive and support an **'owners mentality'** across the business
- ▶ Make it simple for our **field workforce** to engage with the business

DELIVER GROWTH

- ▶ Target additional **'annuity style'** revenues to support ongoing future growth
- ▶ Maximise organic **'value add'** opportunities across our existing client base
- ▶ Continue to assess and progress **acquisitions** which provide **revenue diversity** and support growth across known / adjacent markets

FY20 Outlook

- The Group expects continued revenue and profit growth in FY20, subject to a continuation of prevailing market conditions.
- FY20 will be characterised by a full-year contribution from Comdain Infrastructure, partly offset by reduced earnings from cessation of nbn D&C operations.
- Group earnings from FY20 onwards will be reported under AASB16 *Leases* with an uplift in EBITDA arising from the revised accounting treatment of motor vehicle and property leases. ¹
- Remaining FY20 priorities include:
 - securing organic growth opportunities as they emerge across existing operations
 - maintaining readiness to deliver increased volume of wireless services as 5G upgrade/augmentation activities gain momentum
 - successfully winding-up nbn MIMA & DCMA operations
 - finalising the integration of Comdain Infrastructure with a focus on enhancing financial and project management controls through adoption of the Group's ERP system
 - continuing to identify and assess further market expansion and diversification opportunities

¹ Had AASB16 been adopted from 1-Jul-18, FY19 EBITDA would have increased by approximately \$10.1m due to lower lease charges to motor vehicle and occupancy expenses, whilst Depreciation would have increased by approximately \$10.0m and Interest Expense would have increased by approximately \$1.1m, resulting in a minor adverse impact to NPAT and EPS.
