

ENVIRONMENTAL POLICY

Service Stream is committed to protecting the environment. Our operations will be conducted in a manner that prevents pollution, preserves natural resources and conserves all heritages. We are focused on pursuing our environmental goal of minimising impact to land, water, air, flora and fauna.

To achieve our environmental goal, Service Stream will:

- ▶ Comply with environmental legislative, contractual and regulatory requirements
- ▶ Maintain a management system that conforms to ISO 14001 requirements and integrate environmental considerations into business and decision-making processes
- ▶ Raise concerns immediately where there is a potential unsafe practice or environment
- ▶ Investigate, report and respond to all environmental incidents and implement corrective actions to prevent recurrence
- ▶ Collect and analyse performance indicators and incident data to drive the continuous improvement processes of our environmental performance
- ▶ Demonstrate appropriate leadership in managing the environment, including the management of premises, plant, equipment, vehicles, substances, heritage listed items, waste management, land and water
- ▶ Conduct an environmental impact study where necessary when purchasing or using premises, plant , equipment, vehicles, substances and systems of work
- ▶ Reinforce to our workers their environmental obligations through our programs of induction, education and training
- ▶ Cause managers and supervisors to be responsible and accountable for the environmental performance of their operations and activities
- ▶ Document, regularly review and assess processes, procedures, objectives, targets and the environmental impacts of our operations
- ▶ Communicate our policy to our workers and other stakeholders including the public

We will respond to the environmental challenges that we encounter in our business, and contribute to the foundation of an environmentally sustainable future for our community.
